VOL. 15 - INDEX - 1971

ALDERMAN, Harold (72)
Heidegger on being human. 16-29.
ANALYSIS, Philosophical
Some notes on the meaning of analysis. F. J. Smith. 159-174.
ANTHROPOLOGY
Technology as philosophic problem. D. Brinkman. 122-128.
ARISTOTLE
On the notion of dialectics. G. J. Stack. 276-290.
AUDITORY phenomena
Ihde's auditory phenomena and descent into the objective. W. R. Goedecke. 175-180.
BEING
Heidegger on being human. H. Alderman. 16-29.
The rose is without why: the later Heidegger. J. D. Caputo. 3-15.
BIOLOGICAL technology
Scientific and technological revolutions. H. Jonas. 76-101.
BOEHME, Jacob, 1575-1624
Potentiality in God: Jacob Boehme. E. B. Koenker. 44-51.
BOURGEOIS, Patrick
Hermeneutics of symbols and philosophic reflection: Paul Ricoeur. 231-241.
BRINKMANN, Donald (132)
Technology as philosophic problem. 122-128.
Toward a metaphysics of technology. S. Moser. 129-156.
CAPUTO, John D. (72)
The rose is without why: the later Heidegger. 3-15.
CARMODY, John
Note on the God-world relation in Whitehead's *Process and reality*. 302-312.
Plato's religious horizon. 52-68.
CONSCIOUSNESS
John Dewey and contemporary phenomenology on experience and subject-object relation. P. Tibbetts. 249-275.
CONVERSATION
Conversation and interpretation. J. J. Mood. 181-185.
COSMOLOGY
Scientific and technological revolutions. H. Jonas. 76-101.
CRITICISM
Conversation and interpretation. J. J. Mood. 181-185.
DESSAUER, Friedrich (138)
Toward a metaphysics of technology. S. Moser. 129-156.
DEWEY, John
John Dewey and contemporary phenomenology on experience and subject-object relation. P. Tibbetts. 249-275.
DIALECTICS
On the notion of dialectics. G. J. Stack. 276-290.
ECONOMICS
Introduction to the thought of Marx. M. Henry. 186-203.
ELLUL, Jacques
Jacques Ellul and the technological society. C. Mitcham and R. Mackey. 102-121.
EMPIRICISM
John Dewey and contemporary phenomenology on experience and subject-object relation. P. Tibbetts. 249-275.
EXPERIENCE
John Dewey and contemporary phenomenology on experience and subject-object relation. P. Tibbetts. 249-275.
EXPERIENCE, Religious
William James on man's creativity in the religious universe. R. Vanden Burgt. 292-301.
Note on the God-world relation in Whitehead's *Process and reality*. J. Carmody. 302-312.
FRIEDMAN, Maurice
Touchstones of reality. 217-228.
GOD
William James on man's creativity in the religious universe. R. Vanden Burgt. 292-301.
Note on the God-world relation in Whitehead's *Process and reality*. J. Carmody. 302-312.
Plato's religious horizon. J. Carmody. 52-68.
Potentiality in God: Jacob Boehme. E. B. Koenker. 44-51.
GOEDECKE, Walter Robert (174)
Ihde's auditory phenomena and descent into the objective. 175-180.
GOOD, The
Plato's religious horizon. J. Carmody. 52-68.
HEGEL, Georg Wilhelm Friedrich
On the notion of dialectics. G. J. Stack. 276-290.
HEIDEGGER, Martin
Essential thrust of Heidegger's thought. J. McGinley. 242-249.
Heidegger on being human. H. Alderman. 16-29.
Heidegger's hermeneutic phenomenology. J. R. Watson. 30-43.
Note on Heidegger and Wittgenstein. D. A. Rohatyn. 69.
The rose is without why: the later Heidegger. J. D. Caputo. 3-15.
Toward a metaphysics of technology. S. Moser. 129-136 (144).

XUM

INDEX

HEISENBERG, Werner (150)
Toward a metaphysics of technology. S. Moser. 129-156.
HENRY, Michel (180)
Introduction to the thought of Marx. 186-203.
HERMENEUTICS
Conversation and interpretation. J. J. Mood. 181-185.
Heidegger's hermeneutic phenomenology. J. R. Watson. 30-43.
Hermeneutics of symbols and philosophic reflection: Paul Ricoeur. P. Bourgeois. 231-241.

Introduction to the thought of Marx. M. Henry. 186-203.
Young Marx on the role of ideas in history. A. F. McGovern. 204-216.
IDEAS
Young Marx on the role of ideas in history. A. F. McGovern. 204-216.
IHDE, Donald
Ihde's auritory phenomena and descent into the objective. W. R. Goedecke. 175-180.
INDUSTRIAL revolution
Scientific and technological revolutions. H. Jonas. 76-101.
INTERPRETATION. *See* Hermeneutics.
JAMES, William
William James on man's creativity in the religious universe. R. Vanden Burgt. 292-301.
JONAS, Hans
Scientific and technological revolutions. 76-101.
JUENGER, Friedrich Georg (148)
Toward a metaphysics of technology. S. Moser. 129-156.
KIERKEGAARD, Soren
On the notion of dialectics. G. J. Stack. 276-290.
KOENKER, Ernest B. (72)
Potentiality in God: Jacob Boehme. 44-51.
LECHNER, Robert
Toward a philosophy of technology. 75.
McGINLEY, John
Essential thrust of Heidegger's thought. 242-249.
McGOVERN, Arthur F. (174)
Young Marx on the role of ideas in history. 204-216.
MACKEY, Robert (75)
Jacques Ellul and the technological society. C. Mitcham and R. Mackey. 102-121.
MAN — Philosophy
Heidegger on being human. H. Alderman. 16-29.
MARX, Karl
On the notion of dialectics. G. J. Stack. 276-290.
Introduction to the thought of Marx. M. Henry. 186-203.
Young Marx on the role of ideas in history. A. F. McGovern. 204-216.
MARXISM
Introduction to the thought of Marx. M. Henry. 186-203.
METAPHYSICS
Toward a metaphysics of technology. S. Moser. 129-156.
MITCHAM, Carl (75)
Jacques Ellul and the technological society. C. Mitcham and R. Mackey. 102-121.
MOOD, John J. (180)
Conversation and interpretation. J. J. Mood. 181-185.
MOSER, Simon
Toward a metaphysics of technology. 129-156.
NATURE — Philosophy
Scientific and technological revolutions. H. Jonas. 76-101.
NIETZSCHE, Friedrich Wilhelm
Essential thrust of Heidegger's thought. J. McGinley. 242-249.
OBJECTIVITY
Ihde's auditory phenomena and descent into the objective. W. R. Goedecke. 175-180.
ONTOLOGY
Heidegger on being human. H. Alderman. 16-29.
Heidegger's hermeneutic phenomenology. J. R. Watson. 30-43.
PERCEPTION
John Dewey and contemporary phenomenology on experience and subject-object relation. P. Tibbetts. 249-275.
PHENOMENOLOGY
Heidegger's hermeneutic phenomenology. J. R. Watson. 30-43.
Hermeneutics of symbols and philosophic reflection: Paul Ricoeur. P. Bourgeois. 231-241.
William James on man's creativity in the religious universe. R. Vanden Burgt. 292-301.
John Dewey and contemporary phenomenology on experience and subject-object relation. P. Tibbetts. 249-275.
Some notes on the meaning of analysis. F. J. Smith. 159-174.
PHILOSOPHICAL analysis. *See* Analysis

• INDEX • • • • •

PHILOSOPHY
Technology as philosophic problem. D. Brinkmann. 122-128.
PHILOSOPHY, Contemporary
Introduction to the thought of Marx. M. Henry. 186-203.
Some notes on the meaning of analysis. F. J. Smith. 159-174.
PLATO
On the notion of dialectics. G. J. Stack. 276-290.
Plato's religious horizon. J. Carmody. 52-68.
POTENTIALITY
Potentiality in God: Jacob Boehme. E. G. Koenker. 44-51.
PSYCHOLOGY
Ihde's auditory phenomena and descent into the objective. W. R. Goedecke. 175-180.
Touchstones of reality. M. Friedman. 217-228.
QUESTIONING
The rose is without why: the later Heidegger. J. D. Caputo. 3-15.
REALITY
Touchstones of reality. M. Friedman. 217-228.

William James on man's creativity in the religious universe. R. Vanden Burgt. 292-301.
Note on God-world relation in Whitehead's *Process and reality*. J. Carmody. 302-312.
Plato's religious horizon. J. Carmody. 52-68.
Touchstones of reality. M. Friedman. 217-228.
REVOLUTION
Scientific and technological revolutions. H. Jonas. 76-101.
Young Marx on the role of ideas in history. A. F. McGovern. 204-216.
RICOEUR, Paul
Hermeneutics of symbols and philosophic reflection: Paul Ricoeur. P. Bourgeois. 231-241.
ROHATYN, Dennis Anthony
Note on Heidegger and Wittgenstein. 69.
SARTRE, Jean-Paul
On the notion of dialectics. G. J. Stack. 276-290.
SCHMIDT, Herman (139)
Toward a metaphysics of technology. S. Moser. 129-156.
SCIENCE — History
Scientific and technological revolutions. H. Jonas. 76-101.
SCIENCE — Philosophy
Technology and philosophic problem. D. Brinkmann. 122-128.
Toward a philosophy of technology. R. Lechner. 75.
SMITH, F. Joseph (174)
Some notes on the meaning of analysis. 159-174.
SOCIOLOGY — Philosophy
Jacques Ellul and the technological society. C. Mitcham and R. Mackey. 102-121.
SOUL
The rose is without why: the later Heidegger. J. D. Caputo. 3-15.
STACK, George J.
On the notion of dialectics. 276-290.
SYMBOL
Hermeneutics of symbols and philosophic reflection: Paul Ricoeur. P. Bourgeois. 231-241.
TECHNOLOGY
Jacques Ellul and the technological society. C. Mitcham and R. Mackey. 102-121.
Scientific and technological revolutions. H. Jonas. 76-101.
TECHNOLOGY — Philosophy
Technology as philosophic problem. D. Brinkmann. 122-128.
Toward a metaphysics of technology. S. Moser. 129-156.
Toward a philosophy of technology. R. Lechner. 75.
TELEOLOGY
Scientific and technological revolutions. H. Jonas. 76-101.
THEISM. *See* Religion — Philosophy
TIBBETTS, Paul
John Dewey and contemporary phenomenology on experience and subject-object relation. 249-275.
TIME
Heidegger on being human. H. Alderman. 16-29.
Heidegger's hermeneutic phenomenology. J. R. Watson. 30-43.
VANDEN Burgt, Robert
James on man's creativity in the religious universe. 292-301.
WATSON, James R. (72)
Heidegger's hermeneutic phenomenology. 30-43.
WHITEHEAD, Alfred North
Note on God-world relation in Whitehead's *Process and reality*. J. Carmody. 302-312.
WITTGENSTEIN, Ludwig
Note on Heidegger and Wittgenstein. D. A. Rohatyn. 69.
Some notes on the meaning of analysis. F. J. Smith. 159-174.
WORK
Heidegger on being human. H. Alderman. 16-29.
